Bibliographie

Jean-Marie LE LAN
François LERIN

Note de présentation

Cette bibliographie ne saurait prétendre à l'exhaustivité, ni même couvrir l'essentiel des résultats des recherches menées sur l'agriculture turque, notamment parce que les sources les plus nombreuses restent, bien entendu, celles de langue turque. Leur sélection et recension ne rentrent pas dans le propos de ce volume et elles semblaient peu utilisables par les lecteurs auxquels est destiné ce numéro d'**Options Méditerranéennes**. Nous avons cependant ajouté en section III, quelques-unes des plus importantes sources statistiques nationales utilisées dans nos recherches et disponibles à l'IAMM.

Cette bibliographie est limitée aux sources de langue française et anglaise. Elle regroupe un peu plus de 200 articles et 125 ouvrages disponibles au Centre de Documentation de l'Institut Agronomique Méditerranéen de Montpellier.

Ce fonds documentaire a été constitué à partir des références fichées par le Centre de Documentation et celles apportées par divers programmes de recherche sur les politiques agricoles, les agro-industries et la nutrition en Turquie, menés au cours des dernières années.

Les références sont classées par ordre alphabétique sans index thématique, pour partie en raison de l'ampleur de la tâche, mais aussi parce que les titres des articles (et, dans une moindre mesure, des ouvrages) indiquent assez bien, comme c'est le cas en général dans les travaux économiques et de sciences sociales, les contenus des références.

I - Articles

ABADAN (Unat N.).- Meanwhile back at the village... repatriated incomes of migrants workers are reshaping the patterns of family life in Turkey, in *Cérès*, N° 77, Sept.1980, pp. 20-24.
